From the far reaches of deep space, a place known only to readers of best science fiction, a threat is approaching. The Breeche, a species hell bent on acquiring the science and technology of other worlds, will stop at nothing until the entire galaxy is ravaged in an interplanetary war like no other. And now, they have set their sights on Earth, a primitive world ripe for alien invasion.

Interested parties are determined to give humanity a method for surviving Armageddon. The Mylin and the Touscal are keepers of an ages-old prophecy carved in stone, and for it to be fulfilled, humans must survive. Together, they decide to build a space ark to allow a limited number to leave the doomed planet, and to do this, they empower a human with mental and physical abilities beyond the norm. That human's name Sophie Schultz. They plan for her to lead the survivors of Earth in action and adventure, so that the prophecy can come true.

But with the time to complete the space ark rapidly running out and humanity's hopes for surviving an interstellar war and the Breeche fading fast, the experiment does not go quite as planned. Imbued with a will to fight and a hunger for action and adventure with an intellect to match, Sophie's plans for Mylin science and technology might be enough to save her planet and turn the course of a deadly alien invasion.

A science fiction space opera adventure brimming with action, humour, and humanity, 'Sophie No Pants' shows what people can do when faced with impossible odds and the will to end an intergalactic war like no other. Check it out in the LOOK INSIDE feature.
