Trailing Love T. A. Chase

While searching for a way to keep from having their very existence wiped from the world, Bandit and Rover find themselves falling in love at the most inconvenient time.

Previously available only in electronic format, these two stories of Gay Erotic Romance have now been combined for a paperback edition! Included are the tales...

— *Love's Baggage*

Things have gotten pretty exciting in Bandit Canis's world. Non-Preterns trying to kill any lycan or Preternatural they can find, and his youngest brother falling in love with a human. Plus finding out there's a spell in a book that could destroy every Preternatural in the world. Yeah, "exciting" is a pale word for what Bandit's life has become. Yet instead of searching for the book, Bandit finds himself escorting twin lycans back to their home pack. While he's not happy about it, at least he gets to spend time with Allen Dow.

Allen is reluctant to return to his home pack to regain control, especially after being sold to a human freak show years ago by his Alpha. He has no choice, though, once he learns how far the pack had fallen in his absence. The only good thing about the entire trip is spending time with Bandit.

As their mission turns deadly, Bandit and Allen cling to each other, their love growing stronger as they both leave the baggage of the past behind them. While their future is unclear in the dangerous world in which they live, they also come to realize that, together, they may be able to weather whatever happens next...

— *Trailing Air*

What are the Preternaturals supposed to do when the book holding the destruction of their kind within its pages is stolen from them? Not panic and hope that the situation changes before the humans get their own hands on it.

The werewolf Rover Canis can't believe he's escorting the very creature that stole the book holding spells that could kill every Preternatural in the world. Yet here he is doing so, and admiring his extremely attractive companion probably isn't the smartest thing he's ever done either. But if he is to save himself along with all his kind, Rover needs to keep his mind on the mission.

Elwin Ice Cloud, a shapeshifting dragon, swipes the powerful book in order to save his kidnapped sister, but he never plans on handing it over to the humans. Yet when dangers grow too difficult for him to handle on his own, he returns to the lycan on whom he'd been spying. Meeting the sexy Rover gives him something else to think about, yet falling in love isn't in his plans either.

Together, these two very different shapeshifters must find a way to trust each other in order to save all the Preternaturals from certain death. If they somehow manage to do so, will love be their ultimate reward?
