This new volume of the successful Lego builders' books series addresses beginners as well as skilled builders who want to improve their building techniques and create individual and lifelike buildings, vehicles and all kinds of other fancy designs. Step-by-step instructions help the reader to come up with their own personal Lego masterpiece. The authors clearly demonstrate how to build "around the corner" or put Lego bricks together so no studs can be seen from the outside. Furthermore cobblestone pavement or various buildings consisting of skeleton framing elements can be created. Plenty of new modules can be created when people start using the bricks for purposes other than intended

Just start building, but don't forget: Just click - don't glue, clip or paint!
