On the Unexplained

Arthur Conan Doyle

On the Unexplained Arthur Conan Doyle

A brand new selection of Arthur Conan Doyle's writings on all things supernatural, taken from *Edge of the Unknown*

An account of séances, automatic writing, trips to haunted country houses, and in-depth philosophical analysis of the thinking behind the supernatural, this book is a must-have for the Conan Doyle enthusiast or the intrigued reader alike. Best known for the creation of Sherlock Holmes, Conan Doyle had many more strings to his bow. He was a political campaigner; he believed in the existence of fairies; and he played amateur sleuth, taking up closed cases to prove miscarriage of justice. Perhaps most intriguing of all though was the fact that, following the deaths of a number of his family, Conan Doyle began to take an interest in what was then termed "spiritualism" (trying to prove the existence of life beyond the grave), he became a member of the paranormal association The Ghost Sense Club, and he also joined the British Society of Psychical Research. Conan Doyle's famous spat with Houdini is represented here with a chapter eulogizing Houdini, apparently still not quite willing to let go the suspicion that the magician was blessed with special powers.
