Lord of the Elements: Interweaving Christianity and Nature Bastiaan Baan

The four classical elements of earth, water, air, and fire are present in Genesis and continue to be significant throughout Christianity. Different streams of thought, such as the School of Chartres, and Celtic Christianity, have emphasized the elements in different ways.

In this unique book, Bastiaan Baan, an experienced spiritual thinker, brings these elements together with ideas from Rudolf Steiner's Anthroposophy. He considers, in particular, how elemental beings?nature spirits?relate to the four elements, and explores the role of elemental beings in our world.

This is a fascinating and original work on the connections between Christianity and the natural world.
