### Elementary Differential Geometry (Springer Undergraduate Mathematics Series) A.N. Pressley

Elementary Differential Geometry presents the main results in the differential geometry of curves and surfaces suitable for a first course on the subject. Prerequisites are kept to an absolute minimum – nothing beyond first courses in linear algebra and multivariable calculus – and the most direct and straightforward approach is used throughout.

New features of this revised and expanded second edition include:

• Coverage of topics such as: parallel transport and its applications; map colouring; holonomy and Gaussian curvature.

Around 200 additional exercises, and a full solutions manual for instructors, available via www.springer.comul>
