## **Histological and Histochemical Methods, fifth edition: Theory and Practice** John Kiernan

This fifth edition of *Histological and Histochemical Methods* continues to provide a clear and consistent introduction to the techniques, description and analysis of the chemical and physical principles of fixation, tissue processing, staining, enzyme location, immunohistochemistry and other key procedures.

The overall structure of the book remains unchanged, but the content has been heavily revised to update the techniques used in line with recent technological advances. Additionally, there are new sections on:

Artefacts and troubleshooting

Methods for microorganisms and fungi in sections

Methods for various pigments and mineral deposits in tissues

Methods for skeletal elements (bone, cartilage) in whole-mounts

*Histological and Histochemical Methods* 5e is essential reading for students, lecturers, researchers and professionals using histological and histochemical techniques.

*Review of 4th edition:* 'In my opinion this should be a compulsory text in every Histology laboratory.'
