Mediación Y Orientación Familiar (Spanish Edition) Hidabouché Peris, Jean-Henri

La complejidad de la familia en nuestros días es manifiesta. Conflictos y problemas se acumulan y exigen una respuesta para su solución. la mediación familiar es un método de resolución de conflictos en la que la familia es primera y última causa, todo cuando se aborda a través de la estrategia, se configura para redefinir y continuar su propia esencia, el concurso del mediador, a modo de catalizador dinámico de la situación problemática, ayuda a las personas implicadas con el fin de lograr reencuadres que faciliten el acceso a expectativas satisfactorias para todos. No es una panacea, por supuesto, pero se constituye en un instrumento de probada utilidad y eficacia. No obstante la constante referencia que hacemos al ámbito familiar, la mediación puede aplicarse también a la empresa familiar, a la sociedad intercultural, a las relaciones fraternales, a la escuela, en el cuidado de los mayores, etc. Su campo es cada vez más amplio y su contenido se encuentra en plena expansión.
